

Minutes of the EADM Board meeting 2013 in Barcelona

August 18th 2013

by Michel Handgraaf

Present: Nicolao Bonini (outgoing President), Cilia Witteman (incoming President), Barbara Summers (President-Elect), Michael Schulte-Mecklenbeck (Newsletter Editor) Andreas Gloeckner (Member-at-Large), and Michel Handgraaf (Secretary-Treasurer).

1. Opening

Nicolao welcomes our new board member, Andreas Gloeckner.

2. Minutes of the previous meetings

The minutes are approved without comments.

3. Workshops and Summerschool

Nicolao expresses happiness about the numbers of the Summerschool organized by Tim Rakow, both in terms of attendance and financially (part of the money was returned). It is decided to stick to the current numbers for sponsoring: 9000 Euro per year: two workshops (= 2*3000) + bi-annual summerschool (3000 per year).

Michael asks about deadline for selections for workshops. Currently this works on a first come-first serve basis, but members are not aware of this, which leads to unfairness. Barbara suggests we should announce this. Nicolao suggests two deadlines: 1st of January and 1st of June and announce two months before. Via mailing list and Post on website. Reason to change this is because we had to reject workshops this year. Barbara asks what if two really good ones come in January? Do we reject one and then what? It's decided that this is not a regular problem, if this occurs we will make decision on the spot. Michael points out that putting this online makes it likely there are more submissions. Nicolao suggest sticking to the old system: no deadlines. Michel suggest one deadline: 1st of March. That's decided. Michel will inform members and post on website.

It is decided to have the **Summerschool in 2014 in Goettingen**, organized by Andreas Gloeckner (plus committee, including Tim Rakow and next organizer).

In 2016 it will be organized in Israel by Shaul Shalvi.

Andreas suggests always having the next organizer in the committee and teaching staff. Not necessarily previous organizer. For continuity Andreas will involve previous teaching staff as well

4. Newsletter

There is no newsletter anymore. Not enough unique content compared to the SJDM newsletter and other newsblogs. Barbara suggest to improve visibility by sending regular emails to members when there's new content on the website.

There's not much activity on the mailing list at the moment, so we want to improve that a little.

Michael points out that we should be careful and stay at low frequency with our announcements about content (eg. every quarter).

5. Finance:

Something is wrong with previous Beattie award for Dan Oppenheimer. Michel will check (*meanwhile this has been solved*).

Michel will also check Beattie awards for 2011/2012. Travel and scientific. (*all in order*)
Barbara suggests costs can be brought down by using paypal for international payments.
Michel is already doing this when possible.
Nicolao mentions that the new system for two yearly payments seems to work well, much more income. Michel agrees.

6. SPUDM & Future

Nicolao suggest to put a max on the conference fee, especially for students.
A fixed number is not feasible, but it will be communicated that fees should not increase too much.
Dates should be communicated well, as will the issue about budget and maximum fees.
Michael suggests adding a sentence about being careful with members money.
There will be a set of SPUDM documents that will be posted online. Michael will make this possible.
Barbara: This year we will probably break even or profit with SPUDM
Barbara mentions there were some issues with regard to the abstract review procedure. The website didn't download
We discuss whether we should offer a standard system for SPUDM
Nicolao asks whether we can do this also in terms of finance?
Michael: the current website cannot do this, so this would require investments.
Michel suggest to leave this all to organizing committee, we can give advice, but not put in effort. We should add to the SPUDM document that the review system has to be tested in time. Andreas and Barbara agree that the quality of talks was high.
There is an offer for **SPUDM 2017** in Israel. We discuss issues about the political situation (and possible changes in it), and decide to have a backup: Netherlands (Wageningen).

SPUDM 2015 scientific committee

Richard Szanto
One other local person
Andreas Gloeckner
Ana Franco-Watkins
Next organizer (general assembly)

Definetti Prize procedure went fine

The proposed new committee for 2015:
Chair: Barbara
Dan Schley
Barbara will ask Alan Sanfey and Tilman Betsch

Beattie Scientific Award

Cilia will chair
Mirta Galesic (previous winner)
Nicolao will ask Barbara Fasolo /Danny Oppenheimer/Fergus Bolger
Cilia will ask Anton Kuhberger

Nicolao notes that the call for the Jane Beattie Scientific award is not clear.
Is it paper or cv? Specify percentages?
Nicolao has a proposal, will send it around.
Michael will change final version online

7. Wagenaar award:

We propose to not create a separate committee, but ask if we can use existing one for the SJDM Beattie Travel award.

8. Website

the new website has been discussed extensively within the board. Michael is in charge and will work with Michel and Judith Kas (student assistant) to create the completely new format. This should be up and running by January 2014. It is decided to ask the members if they agree that a membership directory is added.

9. Decision Making in ABS publication rating

Barbara outlines the problem of DM journals not being very present in this important list that is currently used in UK to determine researcher output. She thinks this list is going to also be important in the rest of Europe. A committee is now being formed to determine which journals will be on it. Nomination for a candidate needs support of international association. Question is do we want to support such a nomination (for Wandu Bruine de Bruin). The board decides to support the nomination.

10. Closing

The board thanks Nicolao for his work as President. The meeting is ended.
